Page

Genetic response of inbred lines of chickens to Rous sarcoma virus. NELSON F. WATERS and A. K. FONTES 351
Immunological and karyological criteria for identification of cell lines. VITTORIO DEFENDI, RUPERT E. BILLINGHAM, WILLYS K. SILVERS, and PAUL MOORHEAD [Plates 36–40] 359
Relative carcinogenic activity of monomethyl derivatives of benz[*a*]anthracene in Fischer line 344 rats. W. F. DUNNING and M. R. CURTIS 387
Electron microscopy of milk secretion in the mammary gland of the C3H/Crgl mouse. I. Cytomorphology of the prelactating and the lactating gland. S. R. WELLINGS, K. B. DEOME, and DOROTHY R. PITELKA [Plates 41–50] ... 393
Electron microscopy of milk secretion in the mammary gland of the C3H/Crgl mouse. II. Identification of fat and protein particles in milk and in tissue. S. ROBERT WELLINGS, B. W. GRUNBAUM, and K. B. DEOME [Plates 51–54] .. 423
Announcement:
Manuscripts Approved for JNCI, June 15 to July 15, 1960 439

No. 3—SEPTEMBER 1960

Some peculiar biological and biochemical properties of a mouse hepatoma induced by chrysoidin. I. Biological and biochemical characteristics of the hepatoma. ZYGMUNT ALBERT and MARIAN ORLOWSKI. [Plates 55–57] .. 443
Some peculiar biological and biochemical properties of a mouse hepatoma induced by chrysoidin. II. Metabolic properties of the hepatoma. ZYGMUNT ALBERT and MARIAN ORŁOWSKI 455
Some peculiar biological and biochemical properties of a mouse hepatoma induced by chrysoidin. III. Activity of glucose-6-phosphatase. ZYGMUNT ALBERT and MARIAN ORŁOWSKI 461
Presence and distribution of free porphyrins in transplants of a chrysoidin-induced mouse hepatoma. KAZIMIERZ MĘDRAŚ. [Plates 58, 59] 465
Autoradiographic analysis of cell proliferation in spontaneous breast cancer of C3H mouse. I. Typical cell cycle and timing of DNA synthesis. MORTIMER L. MENDELSOHN, F. CURTIS DOHAN, JR., and HUGH A. MOORE, JR. ... 477
Autoradiographic analysis of cell proliferation in spontaneous breast cancer of C3H mouse. II. Growth and survival of cells labeled with tritiated thymidine. MORTIMER L. MENDELSOHN 485
Electron microscopic examination of the MC1M tumor. I. The tumor in ascites form. A. BERGSTRAND, and N. RINGERTZ. [Plates 60–66] 501
Electron microscopic examination of the MC1M tumor. II. A comparison between the sublines M_{aa}, M_{aa_2}, and M_{ss}. A. BERGSTRAND and N. RINGERTZ. [Plates 67–80] 523
An ascites tumor derived from the Novikoff hepatoma. MONROE BIRNS. [Plate 81] 547
Hormone-induced tumors. I. Hamster flank-organ and kidney tumors *in vitro*. F. THOMAS ALGARD. [Plates 82, 83] 557
Histopathology of tumors induced in mice treated with polyoxy ethylene sorbitan monostearate. GIUSEPPE DELLA PORTA, BENEDETTO TERRACINI, KAI DAMMERT, and PHILIPPE SHUBIK. [Plates 84–96] 573
Role of polyoxyethylene sorbitan monostearate in skin carcinogenesis in mice. GIUSEPPE DELLA PORTA, PHILIPPE SHUBIK, KAI DAMMERT, and BENEDETTO TERRACINI 607
Induction of melanotic tumors in the Syrian golden hamster after administration of ethyl carbamate. GIUSEPPE PIETRA and PHILIPPE SHUBIK 627
Studies on the mechanism of immunological enhancement of tumor grafts. MICHAEL FELDMAN and AMIELA GLOBERSON 631
Chromosomes of tumor cells. I. Murine leukemias induced by one or two injections of 7,12-dimethylbenz[*a*]anthracene. H. F. STICH. [Plates 97–99]. 649

Page

An explosion instrument for disrupting tissues and cells. JAMES A. REYNIERS and MIRIAM R. SACKSTEDER. [Plates 100–102] 663
Announcements:
Manuscripts Approved for JNCI, July 15 to August 15, 1960 683
VIII International Cancer Congress 684

No. 4—OCTOBER 1960

Carl Voegtlin—Obituary and Bibliography v
On the type of hemoglobin in the neoplastic cell of virus-induced fowl erythroleukemia. E. AMBS and B. THORELL. [Plate 103] 685
Distribution of radioactivity after intravenous administration of 7,12-dimethylbenz[*a*]anthracene-7,12-C^{14} into the mouse. HERBERT I. HADLER and KATHARINE LEE 697
Modified drop technique: preparation of smears for automatic, electronic scanning. WILLIAM B. COURTNEY, ALBERT W. HILBERG, SAMUEL C. INGRAHAM II, RAYMOND F. KAISER, and MARY M. BOUSER. [Plate 104] ... 703
Indications of involvement of the reticuloendothelial system in alterations of iron metabolism produced by tumor extracts. RALPH F. KAMPSCHMIDT and WEST A. CLABAUGH 713
Influence of pregnancies on the histogenesis of mammary cancer in the RIII/Dm/Se substrain of mice. MARIA OLIVI 719
Effect of colchicine and related substances on the morphology of peritoneal mast cells. JACQUES PADAWER. [Plate 105] 731
Potential oncogenic properties of high polymers in mice. WILLIAM L. KYDD and LEO M. SREEBNY 749
Viruslike particles in precancerous hyperplastic mammary tissues of C3H and C3Hf mice. DOROTHY R. PITELKA, KENNETH B. DEOME, and HOWARD A. BERN. [Plates 106–111] 753
Immunologic response to lymphocytic choriomeningitis virus in lethally irradiated mice treated with bone marrow. DELTA E. UPHOFF and VICTOR H. HAAS 779
Localization of radioiodinated antibodies in rats bearing tumors induced by *N*-2-fluorenylacetamide. EUGENE D. DAY, JAKOB A. PLANINSEK, and DAVID PRESSMAN 787
Effect of a transplanted plasma-cell tumor on antibody formation. FALCONER SMITH, MARIE M. GRENAN, and JOHN OWENS 803
Characterization by certain drugs of four morphologically indistinguishable cell lines. HENRY C. ORR and MORRIS BELKIN. [Plates 112–114] 813
An electron microscope study of spontaneous mammary carcinomas in a subline of strain DBA mice. ANNA GOLDFEDER, DOROTHY GELBER, and DAN H. MOORE. [Plates 115–121] 827
Development of plasma-cell neoplasms in BALB/c mice after intraperitoneal injection of paraffin-oil adjuvant, heat-killed staphylococcus mixtures. MICHAEL POTTER and CHARLOTTE L. ROBERTSON. [Plates 122–125] 847
Initial effect of community-wide cytologic screening on clinical stage of cervical cancer detected in an entire community. Results of Memphis-Shelby County, Tennessee, study. RAYMOND F. KAISER, CYRUS C. ERICKSON, BENNETT E. EVERETT, JR., ALEXANDER G. GILLIAM, LLOYD M. GRAVES, MARY WALTON, and DOUGLAS H. SPRUNT 863
Specific homograft tolerance induced by successive matings and implications concerning choriocarcinoma. RICHMOND T. PREHN 883
Exchange of radioactive magnesium in Walker carcinosarcoma 256: A note. TERENCE A. ROGERS, FRANCES L. HAVEN, and PARKER E. MAHAN 887
Announcements:
Establishment of a Coordinating Committee for Cell-Culture Collection 889
Staff Appointments and Reorganization of Program Operations of NCI 889
Manuscripts Approved for JNCI, August 15 to September 15, 1960 890

No. 5—NOVEMBER 1960

Page

Heated fats and allied compounds as carcinogens: A critical review of experimental results. E. Arffmann 803

Reduction of transplantability of Novikoff hepatoma cells grown *in vitro* and the consequent protecting effect to the host against their malignant progenitor. T. C. Hsu 927

Lung tumors produced by intratracheal inoculation of polyoma virus in Syrian hamsters. Alan S. Rabson, William J. Branigan, and Frances Y. Legallais. [Plates 126–135] 937

Acid-extractable nuclear proteins of cancer cells. I. Staining with ammoniacal silver. Maurice M. Black, Francis D. Speer, and Lois C. Lillick. [Plates 136–141] 967

Mammary carcinogenesis by 3-methylcholanthrene. II. Inhibitory effect of pregnancy and lactation on tumor induction. Thomas L. Dao, Fred G. Bock, and Mary J. Greiner. [Plate 142] 991

Survival of patients with cancer of the stomach, Connecticut, 1935–54. Fred Ederer, Sidney J. Cutler, Henry Eisenberg, and John R. Keogh 1005

Mammary tumors and mammary-gland development in hybrid mice treated with diethylstilbestrol for varying periods. Flavia L. Richardson and Georgia Hall. [Plates 143–145] 1023

Relationship between chromosome ploidy and radiosensitivity in selected tumor sublines of common origin. László Révész and Ulla Norman. [Plate 146] 1041

Note on the catalase activity of several mammalian cell strains after long cultivation *in vitro*. Ellison V. Peppers, Benton B. Westfall, Harold A. Kerr, and Wilton R. Earle 1065

Susceptibility of seven inbred strains and the F_1 hybrids to estrogen-induced testicular tumors and occurrence of spontaneous testicular tumors in strain BALB/c mice. Howard B. Andervont, Michael B. Shimkin, and Harry Y. Canter. [Plate 147] 1069

Some factors involved in the induction or growth of testicular tumors in BALB/c mice. Howard B. Andervont, Michael B. Shimkin, and Harry Y. Canter 1083

Effects of cortisone in tumor transplantation. George E. Moore, Tatsuhei Kondo, and Robert J. Oliver 1097

Synthetic auxins in the chemotherapy of transplanted and spontaneous mouse adenocarcinoma. C. A. Apffel, A. Tregier, and F. Homburger 1111

Formation of ketopentoses, beginning with ribose-5-phosphate, in the serum of patients with cancer. Alberto Cazorla and Daniel Loayza 1121

Continuously propagating cells derived from normal mouse bone marrow. Daniel Billen and G. A. Debrunner. [Plates 148–150] 1127

Endometrial sarcomas of the uterus and carcinosarcomas of the submaxillary salivary gland in castrated A × C strain female rats receiving *N,N*-fluorenyldiacetamide and norethandrolone. Melvin D. Reuber. [Plates 151–153] 1141

Mechanism of experimental tumorigenesis. VI. Ultrastructural alterations in mouse epidermis caused by locally applied carcinogen and dipole-type tumor promoter. Kai Setälä, Lauri Merenmies, Eino Erkki Niskanen, Mauri Nyholm, and Leo Stjernvall. [Plates 154–164] 1155

Note on results of Linder and Klein with coisogenic resistant lines of mice. G. D. Snell 1191

Announcements:

Translation Program of American Institute of Biological Sciences 1195

Manuscripts Approved for JNCI, September 15 to October 15, 1960 1195

No. 6—DECEMBER 1960

Page

Clues to the etiology, pathology, and therapy of cancer provided by analogies with transplantation disease. ALBERT TYLER 1197

Lung cancer in World War I veterans: Possible relation to mustard-gas injury and 1918 influenza epidemic. GILBERT W. BEEBE 1231

Neoplasms among A-bomb survivors in Hiroshima: First report of the research committee on tumor statistics, Hiroshima City Medical Association, Hiroshima, Japan. TOMIN HARADA and MORIHIRO ISHIDA 1253

Study of methods for abbreviating carcinogenicity bioassays. I. Enhancement of neoplastic response by pretreating with a potent carcinogen. WILLIAM E. POEL 1265

Tumor formation with transplants of spleen or liver from mice with virus-induced leukemia. CHARLOTTE FRIEND and JAMIL R. HADDAD. [Plates 165, 166] 1279

Deoxyribonucleic acid values (Feulgen microspectrophotometry) in epithelium of human ectocervix, normal and cancerous. BEVAN L. REID and SARDOOL SINGH 1291

Structural differences produced in mammalian cells by changes in their environment. MAX G. MENEFEE and VIRGINIA J. EVANS. [Plates 168–174] 1303

Metabolism of mammary-gland slices from rats receiving progesterone and 3-methylcholanthrene. E. DOUGLAS REES 1325

Mammalian chromosomes *in vitro*. XIII. Cyclic and directional changes of population structure. T. C. HSU. [Plate 175] 1339

Growth inhibition of chick-embryo cells by some 5-fluorinated pyrimidines: effect on Rous sarcoma virus infection. MARVIN A. RICH, ELLIOTT H. STONEHILL, and MAXWELL L. EIDINOFF 1355

Analysis of enzymatic activities of clones derived from variant cell lines transformed to malignant cells in tissue culture. DWIGHT B. MCNAIR SCOTT, ANNA MARIE PAKOSKEY, and KATHERINE K. SANFORD 1365

Serum-protein changes in malignant disease. II. The chronic leukemias, Hodgkin's disease, and malignant melanoma. DANE R. BOGGS and JOHN L. FAHEY 1381

Importance of the infecting dose on growth patterns of Rous sarcoma virus (RSV) in chick brain. FRANK J. RAUSCHER and VINCENT GROUPÉ 1391

Prolonged survival of skin homografts in parous female mice. EDWARD J. BREYERE and MORRIS K. BARRETT 1405

Behavior *in vitro* of a mouse lymphoid leukemia virus. ROBERT A. MANAKER, PATSY C. STROTHER, ALICE A. MILLER, and CHESTER V. PICZAK. [Plate 176] 1411

Virus of avian myeloblastosis. XVIII. Fixation of myeloblasts and phosphatase activity of loci of virus synthesis (viroplasts). DAVID WEINSTEIN, J. R. SOMMER, G. S. BEAUDREAU, CAROLINE BECKER, R. A. BONAR, and J. W. BEARD. [Plates 177–184] 1421

Reducing bodies in the adrenal medulla fixed with Zenker-formol. S. S. SPICER and THELMA B. DUNN. [Plates 185, 186] 1451

Acknowledgment 1461

Index of authors 1465

Index of subjects 1469

Announcements:

Manuscripts Approved for JNCI, October 15 to November 15, 1960 1477

Symposium on Fundamental Cancer Research 1478
